22	IRS-660	Political Geography (Optional)	3(3-0)	Semester 4
23	IRS-678	Seminar Course New Paradigm in International Security (Optional)	3(3-0)	Semester 4
24	IRS-679	Seminar Course War & Conduct of War (Optional)	3(3-0)	Semester 4
25	IRS-680	Research Project / Thesis (Optional)	6(0-6)	Semester 4

DETAIL OUTLINE OF M.A INTERNATIONAL RELATIONS

Introduction and Issues of International Relations

The purpose of this course is to analyze the basic factors, concepts in the field of international relations. The contents of the course are:

Section – A: Introduction to Basic factors and concepts

1. Introduction to International Relations

Meaning, definition and significance

Scope

Development of International Relations

2. Modern Sovereign state-system

Meaning

Evolution, Origin and development

Characteristics and features

Crisis or decay?

3. The phenomenon of power

Nature and Kinds of Power

National Power

Definition and nature

Elements of national power

Balance of Power

Meaning

Characteristics

Types of balance

Devices and methods

Critical Evaluation

Power Politics

Nature and assumptions

Patterns of Power Politics

4. National interest

Meaning

Types of National Interest

Instruments and methods for promotion of national interest

5. Nationalism

Meaning and origin

Positive & negative effects of nationalism

Prospects for nationalism

Section – B: Global Issues in International Relations

6. Population

Issues and concerns

Features

Reasons for increase in Population

7. Human Rights

Historical perspective

Kinds of rights

Reasons, why Human Rights have become a matter of international interest and concern

Enforcing Human Rights

8. Environment

Nature and issue

Various international concerns/issues of environment i.e., Global warming, Ozone depletion, Acid rain, Desertification & Deforestation

Efforts towards protection of environment

9. Proliferation of Weapons

Nature of problem

Arms control & disarmament

Reason for arms control

Obstacles to arms control

Major steps/efforts towards arms control & disarmament

International Relations since 1945

1. East – West Relations

World War – II and its perspective

Impact of World War II on the structure of World Politics

Emergence of Super Powers, Bipolarity, East-West Confrontation, Cold War.

Sino-Soviet Split, Sino-American Rapprochement

Détente – East-West Cooperation, Peaceful Co-existence

2. The Third World

Decolonization

Non-aligned Movement in the New World Order

Muslim World and the OIC

North – South Dialogue

3. Post-Cold War Era/New World Order

The Disintegration of the Soviet Union

East Europe after the Cold War.

Russia in the Post-Soviet Setting

United Nation in the Uni-polar World

Emerging Regionalism, Economic Organizations: EU, ECO, ASAIN, NAFTA, AFTA, & APEC.

4. New World Order and the Selected Regional & International Issues

The Gulf War

The Bosnian Tragedy

The Kashmir Dispute

The Islamic Revivalism

The Palestine Issue

The Afghan Crisis

The New Role and Expansion of NATO

5. New Poles of International Power and Influence

Rise of China as a Major Power

Emergence of Japan and Germany as Economic Powers

Emergence of United Europe
Rise of the Asia-Pacific region

Theories of International Relations

The first and foremost Purpose of this paper is to introduce to the students the different theories in International Relations. This course will enable the students to understand the dynamics of World politics through different approaches and identify the problems and issues of International politics and find their solutions keeping in mind the various schools of thoughts in the field of International relations. This is also a comparative analysis of different approaches, theories, and paradigms presented by different scholars regarding the global issues. The contents of the course are following:

Thinking theoretically to interpret global issues

The Elusive Quest for theory

The importance of theory building in International Relations

The Evolution of theoretical Inquiry

The difference between a theory, an approach, and a paradigm

Liberalism

Idealists, the origin, development and evolution

The Idealist World View

Collective security, self-determination, and international peace

The Idealist Reform Program

Criticism

Realists

The origin, development, and evolution

The Realist World View

Real Politik, power, Self-help, state sovereignty, national interest,

The limitations of Realism

Realism in the Nuclear age

Criticism

Behavioralists

The origin, development, and evolution

Behavioral scientists

Structural realism, neotraditional realism, deconstructivism

Behavioral science and the advancement in International Relations

Post behavioral moment

Neo-Realism

The structural extension of Realism

The neoclassical Extension of Realism

Neorealism versus neoliberalism

Relative and absolute gains

Security studies and neo-realism

Neo-Liberalism

The Varieties of Liberalism

The liberal responses to globalization

Feminist theory, complex interdependence, non-state actors, globalization, international regimes

The neo-neo debate

The neo-Liberalism and its current critics

System Approach

The origin, development, and evolution

The key features of the theory

Criticism

Decision-making Approach

Salient features

Different models and styles of Decision- making at the Global level

Determinants of decision-making at different levels

Effective decision-making

Communication and Integration

The Political Communication

The role of Communication in International Politics

The Theory of Integration

The origin, meanings, and methods to achieve integration
The integration and disintegration

Terrorism and Counter Terrorism

Terrorism and Counter Terrorism

The basic objective of this course is an in depth study of the phenomenon of terrorism, its root causes, forces behind, types of terrorism and efforts for containing terrorism. The course is divided into two parts: First Part deals with basic concepts of terrorism, historical development and various kinds of terrorism. An analysis of bio-terrorism, threat of nuclear terrorism and state terrorism is also a major concern of this course. While second part is focusing on the counter terrorism, its definition, meanings, war against terrorism. It will also be examining the response of international community in containing it, as well as the role and scope of International Law in this regard.

1. Terrorism:

Definition

Meaning

Basic Concepts

Causes and Motivations

Historical Overview of Terrorism

Face of Terrorism – Political, Ethnic, and Religious etc.

State Terrorism

Bio-terrorism – threat of nuclear terrorism.

2. Counter Terrorism

Meanings

Definition

Methods and Techniques

War Against Terrorism

International Community's response

History and 9/11

Globalization

Global Order and Terrorism

Emerging New Trends

Terrorism of the future

Efforts for Containing it

Role of International Law.
