**NOW THIS AGREEMENT WITNESSETH** and it is hereby agreed and declared as under:

## 1. PURPOSE OF AGREEMENT

The subject of this agreement is to define the cooperation between the parties of this agreement, which are “Government College University Faisalabad” and “8.2 Renewable Energy Experts Pakistan, Lahore (8.2REEP)” on 20-12-2021.

Through this memorandum, both Parties affirm the value of Industry-academia collaboration and agree to promote the following activities.

1. To bridge the gap between theoretical training and practical learning 8.2 Renewable Energy Experts Pakistan, Lahore (8.2REEP) will launch internship program for students of Government College University Faisalabad. The duration of these internships will be two months. This opportunity will provide comprehensive learning platform to students where they can enhance their skills and become job ready along with practical exposure.
2. Job opportunities will be offered 8.2 Group to fresh graduates of Government College University Faisalabad Campus to provide first-hand experience to aspiring graduates who are eligible.
3. To facilitate knowledge sharing and experience exchange through capacity building activities, resources will be exchanged and trainings will be organized. Professionals from both parties will visit each other and organize seminars and training workshops whenever required on mutual consent of both parties.
4. To bring prior IP, capability to the consortium and/or significant deployment, implementation, or scale up capability, 8.2 Group may be invited as industrial collaborator for research project grants including HEC challenge funds / IGNITE (Ministry of IT & Telecom) and other international research programs that come under ORIC GCUF.

## 8.2 | The Experts in Renewable Energy

5. Being an international partner, 8.2 will bring a unique added value to the research projects.
6. The final year project will be aligned with real life industrial projects in order to provide firsthand experience to the aspiring final year students. In this regard, Professionals from 8.2 Group will share the potential industrial projects and provide their expertise as an external supervisor for the projects. It will also enhance the knowledge of students on the trending technologies according to industry standards. 8.2 Group will own intellectual property rights of these projects.

## 8.2 | The Experts in Renewable Energy
